

# A PUBLIC SERVICE NOTICE

From *Will B. Gone*

Director of the

**U.S. Department Of Zombie Elimination And Defense**

“The 2013 zombification season is upon us. In recent years, fascination with this virus has risen and even become trendy. This is a public service reminder that the zombie virus is DANGEROUS and nothing to fool around with. If you see a Zombie – report it! Don’t go it alone! Seek professional help, I mean, the help of professionals! Remember, zombification is no laughing matter!”

## TIPS TO REMEMBER:

- Wash your hands often. It won’t help but it sounds good.
- If you see an unattached zombified eye or limb DON’T touch it!
- Develop your stamina for running and hiding.
- Develop your tripping skills.
- If you see something, say something! Go to [DOZED.org](http://DOZED.org) to report a Zombie sighting.
- Register your zombie plan at [DOZED.org](http://DOZED.org) and be eligible to win a free t-shirt!

**Do your part! Go to [DOZED.org](http://DOZED.org).**

**Download this notice and post it in your local schools, libraries, and other establishments.**

**Remember! Only you can prevent an apocalypse!**
